ARCA TERMS OF SERVICE

Effective Date: August 12, 2026

Last Updated: August 12, 2026

PLAIN-ENGLISH SUMMARY

This summary is provided for convenience only. It is not legally binding and does not replace the full Terms below.

- **What Arca is.** Arca is a platform where you can contribute your AI coding workflow data (your interactions with AI coding tools and the associated private repository) and get paid if your submission is approved.
- **You must own what you sell.** You may only submit data and code that you have the full right to sell. No employer code, no third-party confidential information, no other people's accounts or repositories.
- **No cheating.** You may not fabricate traces, tamper with the Arca Trace App or its proofs, run duplicate or spam submissions, or otherwise game the platform. Verified authenticity is the core of Arca.
- **We decide the final payment.** Any quote range shown before review is an estimate only. We evaluate every submission and determine, in our sole discretion, whether it is approved and what the final payment is.
- **You can delete your data until you are paid.** You can withdraw a submission before confirming it, and you can request deletion of your submitted data at any time after upload and before you receive payment for it, and we will honor that request. Once you have been paid for a submission, the license you granted is permanent and that submission can no longer be deleted (Section 12).
- **How we use the data.** Once you confirm a submission, we may use it for any lawful purpose, including analyzing and understanding AI model behavior, building derived datasets and evaluation/reinforcement-learning environments, training AI models, and licensing or selling the data (including the raw data) and derived datasets to our customers.

- **You are responsible for what you submit.** If your submission violates someone else's rights or breaks these Terms and that leads to claims against Arca, you are responsible for the resulting losses and costs (Section 19).
- **Payments are in USDC.** Payouts are made in USDC (or similar means we support) to the wallet you connect. You are responsible for your wallet and your taxes.
- **Disputes go to arbitration.** These Terms are governed by British Virgin Islands law and contain a binding arbitration clause (SIAC arbitration seated in Singapore) and a class action waiver (Section 22). Please read it.

1. ACCEPTANCE OF THESE TERMS

These Terms of Service (these "**Terms**") are a legally binding agreement between you ("**you**," "**your**," or "**Contributor**") and Concision Technology Limited, a BVI business company incorporated in the British Virgin Islands, which operates the Arca platform ("**Arca**," "**we**," "**us**," or "**our**"), governing your access to and use of:

- the Arca contributor dashboard, website, and related online services (the "**Dashboard**");
- the Arca Trace desktop/CLI application and any related software we make available (the "**Trace App**"); and
- the data submission, evaluation, and payout services we provide (together with the Dashboard and the Trace App, the "**Services**").

By checking the box indicating your acceptance of these Terms, clicking "Continue," creating an account, downloading or running the Trace App, or otherwise accessing or using the Services, you agree to be bound by these Terms and by our Privacy Policy (available at https://arca.market/privacy_policy.pdf), which is incorporated into these Terms by reference. If you do not agree to these Terms, you must not access or use the Services.

IMPORTANT: SECTION 22 OF THESE TERMS CONTAINS A BINDING ARBITRATION PROVISION AND A CLASS ACTION WAIVER. THEY AFFECT HOW DISPUTES BETWEEN YOU AND ARCA ARE RESOLVED. PLEASE READ THEM CAREFULLY.

In addition, each time you confirm a data submission through the Dashboard, you reaffirm your agreement to these Terms, including the representations and warranties in Section 9, as of the date of that submission.

2. DEFINITIONS

- "**AI Interaction Trace**" or "**Trace**" means the record of requests and responses exchanged between your development environment and an AI model or AI coding tool (for example, an AI coding assistant, CLI tool, desktop application, or IDE extension supported by the Trace App) captured by the Trace App during a Session, together with associated metadata and zkTLS Proofs.
- "**Artifacts**" means, collectively, the materials you upload to the Services in connection with a Submission, including AI Interaction Traces, Repository archives (e.g., zip files), zkTLS Proofs, GitHub-related proofs, and any notes or other content you provide with a Submission.
- "**Approved Submission**" means a Submission that Arca has, in its sole discretion, approved for payment following review.
- "**Call-for-Data**" means a posted specification describing the data Arca is currently seeking (for example, by programming language, AI model, repository category, or repository type).
- "**Customer**" means a third party that licenses or otherwise obtains data, datasets, or other products or services from Arca.
- "**Derived Data**" means data, datasets, evaluations, benchmarks, environments, models of behavior, statistics, annotations, insights, reports, and other materials created by or for Arca in whole or in part through the processing, analysis, transformation, or aggregation of Artifacts, in each case that do not consist of your raw Artifacts themselves.
- "**Digital Wallet**" means the blockchain wallet address you connect to the Services for receiving Payouts.
- "**Final Quote**" means the payment amount finally determined by Arca for an Approved Submission.
- "**Payout**" means a payment made by Arca to your Digital Wallet (or by other payment means we support) in respect of one or more Approved Submissions.
- "**Quote Range**" means the preliminary, non-binding estimated payment range displayed to you before you confirm a Submission.
- "**Repository**" means a software code repository (including its commit history, files, and associated content) that you upload or make available in connection with a Submission.
- "**Reputation Score**" means the score Arca assigns to a Contributor based on account activity, verification proofs, submission history, and other factors Arca considers relevant.

- "**Review Period**" means the period during which Arca evaluates a confirmed Submission, currently targeted at up to seven (7) days but subject to change.
- "**Session**" means a recording session run through the Trace App during which AI Interaction Traces are captured for a designated local repository.
- "**Submission**" means the package of Artifacts you upload and confirm through the Dashboard submission flow.
- "**zkTLS Proof**" means a cryptographic proof generated by or through the Trace App intended to attest to the authenticity of an AI interaction or other data.

3. ELIGIBILITY

To use the Services, you must:

- be at least eighteen (18) years old and have the legal capacity to enter into a binding contract;
- not be barred from using the Services under the laws of any applicable jurisdiction;
- not be located in, organized in, or a resident of any country or region subject to comprehensive sanctions administered by the U.S. government (including OFAC), and not be listed on any U.S. or other applicable government list of prohibited, sanctioned, or restricted parties;
- use the Services on your own behalf as an individual (or, if we expressly permit entity accounts, on behalf of an entity you are authorized to bind); and
- comply with these Terms and all applicable laws and regulations.

We may require identity verification, tax documentation, or sanctions screening at any time, including as a condition of any Payout (see Section 11.7). We may refuse, suspend, or terminate access to the Services if we cannot verify your eligibility to our satisfaction.

4. YOUR ACCOUNT

4.1 Registration. You may register using an email address with a one-time sign-in code or through single sign-on with Google. You are not a registered user until you have affirmatively accepted these Terms and the Privacy Policy during signup. You agree to provide accurate, current, and complete information and to keep it up to date.

4.2 One Account Per Person. You may create and maintain only one account. Creating or controlling multiple accounts is prohibited, including doing so to submit the same or similar data multiple times, to manipulate Reputation Scores, or to circumvent a suspension or termination.

4.3 Account Security. You are responsible for all activity that occurs under your account, including submissions made and wallets connected through it. You must keep your login credentials, connected accounts, and devices secure, and notify us promptly at contact@arca.market of any unauthorized use of your account.

4.4 Connected Accounts. The Services allow or require you to connect third-party accounts, such as GitHub and Google, and a Digital Wallet. You represent that each connected account and wallet belongs to you and that you are authorized to connect it. Your use of third-party accounts is governed by those third parties' own terms (see Section 17).

5. THE SERVICES

5.1 Overview. Arca operates a platform through which Contributors may submit AI coding workflow data (principally AI Interaction Traces captured by the Trace App and the corresponding private Repository) in response to Call-for-Data specifications, and receive payment for Approved Submissions.

5.2 What Arca Does with Contributed Data. Arca and its Customers may use contributed data for any lawful purpose, including without limitation: analyzing and understanding the behavior of AI models and AI coding tools; constructing, validating, and operating benchmarks, evaluation suites, and reinforcement-learning or other training environments; creating Derived Data and derived datasets (including datasets for post-training); training, fine-tuning, post-training, evaluating, and improving AI models of any kind (including proprietary, open-source, and openly released models); and licensing, selling, or otherwise providing Artifacts (in raw or processed form) and Derived Data to Customers for any of the foregoing purposes.

5.3 Respect for Model Provider Restrictions. Arca operates its collection and use of AI Interaction Traces in a manner intended to respect applicable restrictions imposed by AI model providers. Arca may decline, restrict, or remove Submissions relating to particular models, tools, or providers at any time, including where required by a provider's terms or applicable law.

5.4 Call-for-Data. Call-for-Data specifications may be launched, edited, or withdrawn by Arca at any time without notice. A Call-for-Data is an invitation to submit data for evaluation; it is not an offer, and no contract for payment is formed unless and until Arca approves your Submission and determines a Final Quote.

5.5 Changes to the Services. The Services are under active development.

We may add, modify, suspend, or discontinue any feature of the Services (including supported AI tools, supported operating systems, evaluation logic, Reputation Score methodology, quote methodology, and payout methods) at any time. Where practicable, we will provide notice of material changes.

6. THE ARCA TRACE APP

6.1 License. Subject to these Terms, Arca grants you a limited, personal, non-exclusive, non-transferable, non-sublicensable, revocable license to install and use the Trace App on devices you own or control, solely to capture and prepare Artifacts for submission to the Services. Any open-source components included in the Trace App are governed by their own licenses.

6.2 How the Trace App Works. The Trace App runs in Sessions. During a Session, it intercepts and records your interactions (requests and responses) with supported AI tools for the repository you designate, generates zkTLS Proofs of authenticity, stores the resulting files locally in a session workspace, and, when a Session ends, compresses the designated repository into an archive. Artifacts remain on your device until you choose to upload them to the Dashboard. The Trace App also transmits limited diagnostic and usage telemetry to Arca as described in our Privacy Policy; telemetry does not include your Traces, your code, or your credentials.

6.3 Your Responsibilities When Recording. You control when Sessions run and which repository is designated. You are solely responsible for ensuring that:

- you run Sessions only for work you intend to contribute and have the right to contribute;
- the designated repository and your AI interactions during a Session do not contain material you are not permitted to sell or disclose (see Section 9);
- before uploading, you remove or exclude credentials, API keys, tokens, private keys, and other secrets, as well as personal data relating to other individuals, from the Repository and, to the extent within your control, from your Traces; and
- you comply with the terms of service of the AI tools and model providers you use during a Session.

6.4 Local Credentials. If you optionally configure GitHub credentials in the Trace App to generate proofs about your private GitHub statistics, those credentials are designed to remain on your device and are not transmitted to Arca. You are responsible for safeguarding your credentials and your device.

6.5 Restrictions. Except to the extent a restriction is prohibited by applicable law, you must not (and must not assist or permit any third party to):

- copy, modify, adapt, translate, or create derivative works of the Trace App or the Services;
- reverse engineer, decompile, disassemble, or otherwise attempt to derive the source code of any non-open-source portion of the Trace App or the Services;
- disable, tamper with, spoof, or circumvent the Trace App's capture, proof-generation, verification, or security mechanisms, including any zkTLS proof system;
- use the Trace App or the Services to develop a competing product or service; or
- distribute, sell, sublicense, rent, or lease the Trace App.

6.6 Updates. The Trace App may automatically check for and install updates. We may require that you use a current version of the Trace App for your Submissions to be eligible for evaluation or payment.

7. SUBMISSIONS, VERIFICATION, AND EVALUATION

7.1 Submission Flow. To make a Submission, you upload the Artifacts generated by the Trace App (at minimum, a trace file and the corresponding Repository archive from the same Session) through the Dashboard, request a quote, review the resulting Quote Range (if any), and either confirm or withdraw the Submission. No Submission exists, and no data is retained, unless you confirm it, except as described in Section 7.4 and our Privacy Policy.

7.2 Automated Verification and Screening. When you request a quote, our automated systems and, where needed, authorized Arca personnel process and may access your uploaded Artifacts in order to screen and evaluate them. Processing includes, without limitation:

- verifying zkTLS Proofs for the authenticity of each uploaded AI interaction;
- performing anti-spam, duplication, and integrity checks (including checking whether the uploaded Repository duplicates data we already hold);
- evaluating the quality of the Artifacts and computing a preliminary score;
- optionally verifying proofs relating to your GitHub account and updating your Reputation Score; and
- computing a Quote Range.

7.3 Failed Verification. If your upload fails zkTLS verification, fails anti-spam or integrity checks, or does not meet threshold requirements (for example, the

Repository is not a private repository where a private repository is required), the upload will be rejected, no Submission record will be created, and the uploaded Artifacts will be permanently deleted from our systems.

7.4 Quote Range Is Non-Binding. Any Quote Range shown to you is a preliminary, good-faith estimate only. It is not an offer, a guarantee, or a commitment to pay any amount. The evaluation of your Submission (including its quality score, your Reputation Score, and the resulting payment, if any) may change during review.

7.5 Confirmation. By confirming a Submission, you: (a) reaffirm these Terms, including the representations and warranties in Section 9, as of the confirmation date; (b) acknowledge that the Quote Range is for reference only and subject to change; and (c) grant Arca the rights described in Section 8 with respect to the confirmed Artifacts.

7.6 Review and Decision. Following confirmation, Arca will review your Submission, targeting completion within the Review Period. **Arca has sole and absolute discretion to approve or reject any Submission and, for Approved Submissions, to determine the Final Quote, which may be inside, above, or below the Quote Range.** Review may involve automated systems, human reviewers, or both. Arca is under no obligation to accept any Submission, to provide detailed reasons for rejection, or to review Submissions in any particular order.

7.7 Rejected Submissions. If a Submission is rejected, no payment is due. You may request deletion of the rejected Submission's Artifacts under Section 12, and Arca may also delete them on its own initiative.

7.8 Post-Approval Audits. Approval of a Submission does not waive Arca's rights. If Arca later determines that a Submission (including an Approved Submission) breached these Terms (for example, because Traces were fabricated or the Contributor lacked rights to the Repository), Arca may exercise its remedies under Sections 11.8 and 18.

8. RIGHTS YOU GRANT TO ARCA

8.1 License Grant. You retain ownership of your Artifacts. Effective upon your confirmation of a Submission, you grant Arca a worldwide, non-exclusive, sublicensable (through multiple tiers), transferable, irrevocable (except as expressly provided in Section 12), perpetual, royalty-free (except for the payment obligations expressly stated in these Terms) license to host, store, cache, reproduce, transmit, display, analyze, process, adapt, modify, translate, create derivative works of, distribute, license, sell, and otherwise use and exploit the Artifacts, in whole or in part, in any manner and for any lawful purpose, including without limitation: the purposes described in Section 5.2; the training, fine-tuning, post-training, evaluation, and improvement of AI models of any

kind (including proprietary, open-source, and openly released models); the creation and commercialization of Derived Data; the sale or licensing of Artifacts in raw or processed form to Customers; and research, development, commercial, archival, security, and legal-compliance purposes.

8.2 Sublicensing and Sales to Customers. The license in Section 8.1 includes the right for Arca to license, sell, or otherwise provide Artifacts (including raw Artifacts) and Derived Data to Customers under agreements that are consistent with the scope of Section 8.1. As between you and Arca, Arca is solely responsible for its agreements with Customers, and you are not a third-party beneficiary of them.

8.3 Derived Data. As between you and Arca, Arca exclusively owns all Derived Data and all intellectual property rights in it. Derived Data is not subject to deletion under Section 12, provided that it does not include your raw Artifacts.

8.4 Moral Rights. To the maximum extent permitted by applicable law, you irrevocably waive, and agree not to assert, any moral rights or similar rights you may have in the Artifacts (including rights of attribution and integrity) against Arca, its Customers, and their respective licensees, in connection with uses permitted by these Terms.

8.5 Payment as Full Consideration. The Final Quote paid for an Approved Submission (together with the mutual promises in these Terms) is the full and complete consideration for the rights granted under this Section 8. You are not entitled to any additional royalties, revenue share, or other compensation, regardless of how, how often, or how profitably Arca or its Customers use the Artifacts or Derived Data, except as expressly agreed in a separate written agreement.

8.6 No Obligation to Use. Arca has no obligation to use, commercialize, or retain any Artifacts.

8.7 Feedback. If you provide suggestions, ideas, or other feedback about the Services, you grant Arca a perpetual, irrevocable, worldwide, royalty-free license to use that feedback for any purpose without obligation to you.

9. CONTRIBUTOR REPRESENTATIONS AND WARRANTIES

This Section is the heart of these Terms. You make each of the following representations and warranties to Arca (a) when you accept these Terms, and (b) again each time you upload Artifacts and each time you confirm a Submission, in each case as of that date and with respect to the applicable Artifacts:

9.1 Ownership and Right to Sell. You own all right, title, and interest in and to the Artifacts, or you otherwise have all rights, licenses, consents,

releases, and permissions necessary to grant Arca the rights in Section 8. No further payment, consent, or approval from any third party is or will be required for Arca or its Customers to use the Artifacts as permitted by these Terms.

9.2 No Conflicting Obligations. Your submission of the Artifacts and Arca's use of them as permitted by these Terms do not and will not violate: (a) any agreement to which you are a party, including any employment agreement, contractor agreement, consulting agreement, non-disclosure agreement, or invention-assignment agreement; (b) any policy of any employer or client of yours applicable to the Artifacts; or (c) any court order or legal obligation applicable to you.

9.3 No Employer or Client Materials. The Artifacts were not created within the scope of any employment or engagement under which the resulting work product belongs to another person or entity, unless you have obtained that person's or entity's express written consent to sell the Artifacts, and you can produce that consent upon request. The Artifacts do not include any code, data, or other materials owned by an employer, client, or other third party that you are not authorized to sell.

9.4 Co-Authors and Collaborators. If any portion of the Artifacts was created jointly with others (including co-committers to the Repository), you have obtained all authorizations from those co-authors necessary to grant the rights in Section 8, or those portions are otherwise licensed in a manner that permits such grant.

9.5 Third-Party and Open-Source Components. Any third-party components in the Repository (including open-source software, libraries, and assets) are properly licensed, and their inclusion in the Artifacts and use by Arca and its Customers as permitted by these Terms are consistent with the applicable license terms. You have not removed or altered any license notices required to be preserved.

9.6 No Confidential or Proprietary Third-Party Information. The Artifacts do not contain trade secrets or confidential or proprietary information of any third party, including any current or former employer or client, or any information you received under an obligation of confidentiality.

9.7 No Third-Party Personal Data; No Secrets. To the best of your knowledge after reasonable review, the Artifacts do not contain: (a) personal data relating to any individual other than you, except incidental data that you are authorized to include; (b) any credentials, API keys, access tokens, private keys, passwords, or similar secrets (whether yours or anyone else's); or (c) any protected health information, cardholder data, government identifiers, or similarly regulated categories of data.

9.8 Authenticity of Traces. All AI Interaction Traces in your Artifacts: (a) reflect genuine interactions between you and the applicable AI tool or model, conducted by you personally, in real time, in the ordinary course of your devel-

opment work; (b) were captured by an unmodified, current version of the Trace App; and (c) have not been fabricated, synthesized, replayed, injected, edited, spliced, re-ordered, or otherwise manipulated. You have not taken any action intended to defeat, spoof, or degrade zkTLS Proof generation or verification.

9.9 Your Own Accounts. All accounts used in connection with the Services and the creation of the Artifacts (including your Arca account, GitHub account, Google account, AI provider accounts, and Digital Wallet) belong to you, are under your control, and were not accessed or used in violation of any third party's terms or rights.

9.10 Compliance with AI Provider Terms. Your use of the AI tools and models involved in creating the Artifacts complied with the applicable provider's terms of service and usage policies in all material respects, and you are not aware of any restriction imposed on you by an AI provider that would prohibit your submission of the Traces to Arca.

9.11 Lawful Content. The Artifacts do not contain any content that is unlawful, infringing, defamatory, or malicious, including malware, spyware, backdoors, or code intended to damage or gain unauthorized access to any system, other than clearly labeled, legitimate security research artifacts that comply with applicable law and any applicable Call-for-Data specification.

9.12 Private Repository Requirement. Where a Call-for-Data or the submission flow requires a private repository, the Repository is and has been a private repository, and the Artifacts are not substantially duplicative of data you have already submitted to Arca (under this or any other account).

9.13 Accurate Information. All information you provide to Arca (including registration information, submission notes, proofs regarding your GitHub account, tax documentation, and payment information) is true, accurate, and complete, and you will keep it up to date.

9.14 Eligibility and Sanctions. You meet all eligibility requirements in Section 3, and no Payout to you would violate applicable sanctions, export control, anti-money-laundering, or similar laws.

If any representation or warranty in this Section 9 is or becomes untrue with respect to any Submission, you must promptly notify us at contact@arca.market. We may remove or delete the affected Submission, and Sections 11.8 (withholding and clawback), 18 (suspension and termination), and 19 (indemnification) will apply.

10. PROHIBITED CONDUCT

You must not, and must not attempt to, encourage, or assist any third party to:

- fabricate, synthesize, replay, edit, splice, or otherwise manipulate AI Interaction Traces or any other Artifacts, or misrepresent their origin or authenticity;
- tamper with, disable, spoof, or circumvent the Trace App, zkTLS Proof generation or verification, the evaluation pipeline, or any other security, verification, anti-spam, or evaluation mechanism of the Services;
- hack, probe, scan, or test the vulnerability of the Services, or breach or circumvent any authentication or security measure, except pursuant to a written authorization from Arca (such as a published bug bounty or responsible disclosure program);
- submit data you do not have the right to sell, including stolen, scraped, leaked, or misappropriated data, or data belonging to an employer, client, or other third party without authorization;
- submit duplicative, spammy, deliberately low-effort, or artificially inflated data, including repositories or sessions generated primarily to extract payment rather than reflecting genuine development work;
- create or use multiple accounts, false identities, or other people's accounts, or otherwise conduct sybil attacks on the platform;
- manipulate or attempt to manipulate Reputation Scores, quotes, evaluations, or payouts, including through collusion with other users or with any reviewer;
- upload malware or malicious code, or use the Services to distribute it;
- interfere with or disrupt the Services or their infrastructure, including through denial-of-service attacks, rate-limit evasion, or unauthorized scraping or crawling;
- use the Services to launder money, finance terrorism, evade sanctions, or engage in any other unlawful financial activity;
- misrepresent your identity, qualifications, or affiliation, or impersonate any person or entity;
- use the Services in violation of any applicable law or regulation, or of any AI provider's, GitHub's, or other third party's applicable terms; or
- access the Services by any automated means not provided by Arca, or use data obtained from the Services to build a competing dataset, product, or service.

We may investigate suspected violations and may involve and cooperate with law enforcement. Violations may result in rejection of Submissions, withholding or clawback of payments (Section 11.8), suspension or termination of your account (Section 18), and any other remedies available at law or in equity.

11. QUOTES, PAYMENTS, AND PAYOUTS

11.1 When Payment Is Due. Payment is due only for Approved Submissions, in the amount of the Final Quote determined by Arca. No amount is due for rejected Submissions, withdrawn Submissions, uploads that fail verification, or Submissions deleted at your request before approval and payment.

11.2 Payout Method. Payouts are currently made in USDC to the Digital Wallet you have connected to your account, and may in the future be made by other means we support. You must connect and verify a Digital Wallet (including by signing a proof-of-ownership message) before receiving Payouts. Payouts are processed on a weekly basis; timing is approximate and may vary.

11.3 Your Wallet, Your Responsibility. You are solely responsible for the accuracy of your connected wallet address and for maintaining control of the corresponding private keys. Blockchain transactions are irreversible. Arca has no obligation to reissue, and no liability for, Payouts sent to the wallet address you connected, including where you lose access to that wallet or connected an address you do not control. If you need to change your payout wallet, you must follow the process we make available, and changes apply only to future Payouts.

11.4 Digital Asset Risks. You acknowledge that digital assets such as USDC involve risks, including price or peg fluctuations, network congestion or failure, protocol changes, and regulatory uncertainty. The USD-denominated value of any Payout may change after the Payout is made. Arca is not responsible for network (gas) fees except as expressly stated, for the acts or omissions of any blockchain network or wallet provider, or for the value of any digital asset after transfer.

11.5 No Guarantee of Earnings. Arca makes no promise as to the availability of Call-for-Data opportunities, the frequency of approvals, the level of quotes or Final Quotes, or any level of earnings.

11.6 Taxes. All amounts payable are exclusive of taxes. You are solely responsible for determining, reporting, and paying all taxes, duties, and government charges that apply to amounts you receive under these Terms. We may require valid tax documentation (for example, IRS Form W-9 or W-8 series, or local equivalents) as a condition of Payout, and we may withhold from Payouts or report to tax authorities where required by law.

11.7 Compliance Checks. We may condition any Payout on the successful completion of identity verification (KYC), sanctions screening, anti-money-laundering checks, or fraud review, and we may delay or decline Payouts pending such checks or where a Payout would, in our reasonable judgment, violate applicable law.

11.8 Withholding, Offset, and Clawback. If we reasonably believe that a Submission or your account activity breaches these Terms (including any representation in Section 9) or is fraudulent, we may withhold associated payments

pending investigation, cancel unpaid amounts attributable to the affected Submissions, and offset amounts you owe us against amounts we owe you. If we have already paid you for a Submission that materially breached these Terms, you agree to repay that amount promptly upon demand. Our rights under this Section are in addition to our other remedies.

11.9 No Employment or Partnership. Nothing in these Terms creates an employment, agency, partnership, joint venture, or franchise relationship between you and Arca. You are an independent party contributing data voluntarily. You have no authority to bind Arca, and you are not entitled to any employee benefits.

12. WITHDRAWAL AND DELETION OF YOUR DATA

Arca is designed so that you stay in control of your contributed data up until the moment you are paid for it. This Section describes your withdrawal and deletion rights. Nothing in this Section limits any non-waivable rights you may have under applicable data protection law, as described in our Privacy Policy.

12.1 Before Confirmation. If you upload Artifacts but do not confirm the Submission (because you withdraw it, close the window before completion, or the upload fails verification), no Submission record is created and the uploaded Artifacts are permanently deleted from our systems.

12.2 After Confirmation, Before Payment. At any time after you confirm a Submission and before you receive payment for it (including while it is in review and after it has been approved but not yet paid), you may request deletion of that Submission. We will honor the request: the Submission will be cancelled, the associated Artifacts will be permanently deleted from our systems within thirty (30) days, the license in Section 8.1 with respect to those raw Artifacts will terminate, and no payment will be due for that Submission. Deletion requests are irreversible, and a deleted Submission cannot be reinstated; you may, however, make a new Submission of data you still hold locally, subject to these Terms and our anti-duplication checks.

12.3 No Deletion After Payment. Once you have received payment for an Approved Submission, your withdrawal and deletion rights under this Section 12 no longer apply to that Submission. The license granted in Section 8.1 with respect to the Artifacts in a paid Approved Submission is permanent and irrevocable, and Arca and its Customers may continue to use, license, sell, and otherwise exploit those Artifacts and any Derived Data as permitted by these Terms. If applicable data protection law grants you a non-waivable right to deletion of specific personal data contained in a paid Submission, we will honor that right to the extent required by law, and the remainder of the Submission and the license will be unaffected.

12.4 Retention Required by Law. Notwithstanding the foregoing, we may retain (a) records of Submissions (such as submission metadata, hashes, evaluation results, payment records, and deletion logs) that do not include the raw Artifacts, and (b) copies of data to the extent retention is required by applicable law, legal process, or bona fide fraud-prevention, audit, or dispute-resolution needs, in each case for no longer than reasonably necessary and subject to our Privacy Policy.

12.5 How to Request Deletion. You may request deletion through the Dashboard or by emailing contact@arca.market from the email address associated with your account. We will confirm completion of the deletion.

12.6 Account Deletion. If you delete your account, we will treat that as a deletion request under this Section 12 for all of your Submissions for which you have not yet been paid, and any unpaid amounts for Approved Submissions not yet paid at the time of account deletion will be forfeited unless we determine otherwise or applicable law requires payment. Artifacts from paid Approved Submissions are not deleted upon account deletion and remain licensed to Arca under Section 8.

13. PRIVACY

Our collection, use, and disclosure of personal data in connection with the Services are described in our Privacy Policy (available at https://arca.market/privacy_policy.pdf). In summary, and without limiting the Privacy Policy: the Trace App records the content of your AI interactions during Sessions you start; you choose what to upload; uploads are screened as described in Section 7.2; and GitHub credentials you configure in the Trace App are designed to remain on your device. Do not include other people's personal data in your Submissions. If you believe personal data has been included in a Submission in error, contact us at contact@arca.market and we will address it, including through removal or deletion where appropriate or required by applicable law.

14. REPUTATION SCORE

Your Reputation Score is computed by Arca based on factors such as your connected GitHub activity, verification proofs you provide, and your submission history, and may be updated periodically. The Reputation Score, its methodology, and its effect on quotes are determined by Arca in its sole discretion and may change at any time. The Reputation Score is not a credit score, an endorsement, or a promise of any particular quote or earnings. Attempting to manipulate Reputation Scores is prohibited (Section 10). If verification of an optional proof fails, we may simply decline to update your score.

15. ARCA INTELLECTUAL PROPERTY

The Services (including the Dashboard, the Trace App, our evaluation systems, our verification technology, and all associated software, designs, text, graphics, logos, and trademarks) are owned by Arca or its licensors and are protected by intellectual property laws. Except for the limited licenses expressly granted in these Terms, no rights in the Services are granted to you, whether by implication, estoppel, or otherwise. "Arca" and associated logos are trademarks of Arca; you may not use them without our prior written consent.

16. COPYRIGHT AND CONTENT COMPLAINTS

If you believe that data on our platform infringes your rights (including copyright), or that a Contributor has submitted data belonging to you without authorization, please notify us at contact@arca.market with: (a) identification of the material and its claimed owner; (b) a description of your rights and the alleged infringement; (c) your contact information; and (d) a statement, under penalty of perjury where applicable, that your notice is accurate and that you are the owner or authorized to act for the owner. We will investigate and may remove or disable access to the material, suspend the responsible account, and take further action as appropriate.

17. THIRD-PARTY SERVICES

The Services interoperate with third-party services and software, including GitHub, Google sign-in, wallet providers (e.g., MetaMask, Rabby, Coinbase Wallet, WalletConnect), blockchain networks, and the AI tools and model providers whose interactions you record. Arca does not control and is not responsible for third-party services, their availability, their security, or their terms. Your use of any third-party service is at your own risk and subject to that third party's terms and privacy policy. AI model providers are not partners of, and do not sponsor or endorse, Arca, and references to their products are for identification only.

18. SUSPENSION AND TERMINATION

18.1 By You. You may stop using the Services at any time and may delete your account through the Dashboard or by contacting contact@arca.market. Section 12.6 governs the effect of account deletion on your data and unpaid amounts.

18.2 By Arca. We may suspend or terminate your access to all or part of the Services, remove or reject Submissions, and/or freeze pending Payouts, with or without notice, if: (a) we reasonably believe you have breached these Terms

(including Sections 9 and 10); (b) we are required to do so by law or by a governmental or judicial order; (c) providing the Services to you creates legal, security, or reputational risk to Arca; or (d) we discontinue the Services generally. Where the cause is curable and the risk is limited, we will endeavor to give you notice and an opportunity to respond.

18.3 Effect of Termination for Breach. If we terminate your account for fraud or material breach (including fabricated Traces, stolen data, or sybil activity), you forfeit any unpaid amounts attributable to Submissions affected by the breach, and Section 11.8 (clawback) applies to amounts already paid on affected Submissions.

18.4 Survival. Sections 2, 8 (subject to Section 12), 9, 10, 11.6, 11.8, 12, 15, 16, and 18 through 25, and any other provision that by its nature should survive, survive termination of these Terms or your account.

19. INDEMNIFICATION

To the maximum extent permitted by applicable law, you agree to indemnify, defend (at Arca's option), and hold harmless Arca and its affiliates, and their respective officers, directors, employees, contractors, agents, licensors, and Customers (collectively, the "**Arca Parties**"), from and against any and all claims, demands, actions, proceedings, investigations, damages, losses, liabilities, judgments, settlements, fines, penalties, interest, costs, and expenses (including reasonable attorneys' fees and costs) arising out of or relating to:

- your Artifacts or Submissions, including any claim that they, or Arca's or a Customer's use of them as permitted by these Terms, infringe, misappropriate, or otherwise violate any third party's intellectual property, privacy, publicity, contractual, or other rights;
- your breach or alleged breach of these Terms, including any representation or warranty in Section 9;
- your violation of any applicable law or regulation, or of any agreement between you and any third party (including any employer, client, or AI model provider);
- your use or misuse of the Services, including any fraudulent, deceptive, fabricated, or manipulated Submission; or
- any dispute between you and any third party relating to your Artifacts.

Arca reserves the right, at your expense, to assume the exclusive defense and control of any matter for which you are required to indemnify the Arca Parties, and you agree to cooperate with that defense. You may not settle any claim covered by this Section without Arca's prior written consent if the settlement requires any Arca Party to pay any amount, admit any liability, or take or refrain from taking any action. Your indemnification obligations under this Section

survive termination of these Terms and the deletion of your account, and are in addition to (not in place of) Arca's other rights and remedies, including under Section 11.8.

20. DISCLAIMERS

THE SERVICES, INCLUDING THE TRACE APP, ARE PROVIDED "AS IS" AND "AS AVAILABLE," WITHOUT WARRANTIES OF ANY KIND, WHETHER EXPRESS, IMPLIED, STATUTORY, OR OTHERWISE, INCLUDING ANY IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE, QUIET ENJOYMENT, AND NON-INFRINGEMENT, AND ANY WARRANTIES ARISING OUT OF COURSE OF DEALING OR USAGE OF TRADE. WITHOUT LIMITING THE FOREGOING, ARCA DOES NOT WARRANT THAT: (A) THE SERVICES WILL BE UNINTERRUPTED, SECURE, OR ERROR-FREE; (B) ANY DATA (INCLUDING ARTIFACTS STORED LOCALLY BY THE TRACE APP) WILL NOT BE LOST OR CORRUPTED; (C) ANY SUBMISSION WILL BE APPROVED OR RESULT IN ANY PARTICULAR PAYMENT; OR (D) ANY VERIFICATION TECHNOLOGY (INCLUDING zkTLS PROOFS) WILL BE FREE OF VULNERABILITIES. YOU ARE RESPONSIBLE FOR MAINTAINING BACKUP COPIES OF YOUR OWN REPOSITORIES AND DATA. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OF CERTAIN WARRANTIES, SO SOME OF THE ABOVE EXCLUSIONS MAY NOT APPLY TO YOU.

21. LIMITATION OF LIABILITY

TO THE MAXIMUM EXTENT PERMITTED BY LAW: (A) IN NO EVENT WILL ARCA OR ITS OFFICERS, DIRECTORS, EMPLOYEES, AGENTS, AFFILIATES, OR LICENSORS BE LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL, CONSEQUENTIAL, EXEMPLARY, OR PUNITIVE DAMAGES, OR FOR ANY LOSS OF PROFITS, REVENUE, DATA, GOODWILL, OR ANTICIPATED EARNINGS, ARISING OUT OF OR RELATING TO THESE TERMS OR THE SERVICES, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES; AND (B) ARCA'S TOTAL AGGREGATE LIABILITY ARISING OUT OF OR RELATING TO THESE TERMS OR THE SERVICES WILL NOT EXCEED THE GREATER OF (i) THE TOTAL AMOUNTS ARCA PAID YOU UNDER THESE TERMS IN THE TWELVE (12) MONTHS BEFORE THE EVENT GIVING RISE TO THE CLAIM AND (ii) ONE HUNDRED U.S. DOLLARS (US$100). THE LIMITATIONS IN THIS SECTION DO NOT APPLY TO LIABILITY THAT CANNOT BE LIMITED BY LAW, INCLUDING LIABILITY FOR FRAUD, GROSS NEGLIGENCE, OR WILLFUL MISCONDUCT WHERE SUCH LIMITS ARE NOT PERMITTED. EACH PROVISION OF THESE TERMS

THAT PROVIDES FOR A LIMITATION OF LIABILITY, DISCLAIMER OF WARRANTIES, OR EXCLUSION OF DAMAGES ALLOCATES THE RISKS BETWEEN THE PARTIES AND IS AN ESSENTIAL BASIS OF THE BARGAIN.

22. DISPUTE RESOLUTION; ARBITRATION; CLASS ACTION WAIVER

22.1 Informal Resolution First. Before filing a claim, you and Arca each agree to try to resolve the dispute informally. You may notify us of a dispute at contact@arca.market; we will notify you at your account email. Each party agrees to negotiate in good faith for at least sixty (60) days before initiating arbitration.

22.2 Binding Arbitration. Except as provided in Section 22.4, any dispute, claim, or controversy arising out of or relating to these Terms or the Services will be referred to and finally resolved by binding arbitration administered by the Singapore International Arbitration Centre ("**SIAC**") in accordance with the Arbitration Rules of the Singapore International Arbitration Centre in force when the notice of arbitration is submitted, which rules are deemed to be incorporated by reference into this Section, as modified by these Terms. The arbitration will be conducted by a single arbitrator appointed in accordance with the SIAC Rules, in English, with its seat in Singapore. Proceedings may be conducted by videoconference or on written submissions where appropriate, and for claims under US$25,000 the parties will request that the arbitration be conducted on a documents-only basis where the SIAC Rules permit. The arbitration agreement in this Section 22 is governed by the laws of Singapore, and the International Arbitration Act 1994 of Singapore applies. The award will be final and binding on the parties, and judgment on the award may be entered in any court of competent jurisdiction.

22.3 Class Action Waiver. YOU AND ARCA EACH WAIVE ANY RIGHT TO A TRIAL BY JURY AND ANY RIGHT TO PARTICIPATE IN A CLASS, COLLECTIVE, CONSOLIDATED, OR REPRESENTATIVE ACTION. Disputes will be arbitrated only on an individual basis. If this class action waiver is found unenforceable as to a particular claim, that claim (and only that claim) will proceed in court, and the remainder will proceed in arbitration.

22.4 Exceptions. Either party may: (a) bring an individual claim in small claims court; and (b) seek injunctive or other equitable relief in a court of competent jurisdiction to protect its intellectual property, its data, or the security or integrity of the Services, without first engaging in the process above.

22.5 Opt-Out. You may opt out of the arbitration agreement in Section 22.2 and the waiver in Section 22.3 by emailing contact@arca.market within thirty (30) days after first accepting these Terms, stating your name, account email,

and intent to opt out. Opting out does not affect any other provision of these Terms.

22.6 Fees. Each party will bear its own attorneys' fees and costs unless the arbitrator awards them under applicable law or the SIAC Rules. Arbitration fees will be allocated in accordance with the SIAC Rules, provided that if (a) your claim seeks US$10,000 or less, (b) you completed the informal resolution process in Section 22.1 before filing, and (c) the arbitrator does not determine that your claim was frivolous or brought for an improper purpose, Arca will pay the SIAC filing and arbitrator fees that exceed the court filing fee you would otherwise have paid in the courts of your place of residence. If the arbitrator determines that your claim was frivolous or brought for an improper purpose, you must reimburse Arca for all arbitration fees it paid or advanced on your behalf, and the arbitrator may award Arca its reasonable costs to the extent permitted by the SIAC Rules and applicable law.

22.7 Coordinated Filings. If twenty-five (25) or more arbitration demands raising similar claims are filed against Arca within a ninety (90) day period by or with the assistance of the same or coordinated counsel or organizations, then, notwithstanding anything else in this Section 22: (a) each side may select up to five (5) demands to proceed first as test cases, and all other demands will be held in abeyance, with applicable limitation periods tolled, until the test cases are resolved; (b) following resolution of the test cases, the parties will participate in a single global mediation of the remaining demands before any of them may proceed; and (c) Arca's fee obligations under Section 22.6 apply only to demands that have commenced in accordance with this Section 22.7. Either party may ask a court of competent jurisdiction to enforce this Section.

23. GOVERNING LAW

These Terms and any dispute or claim (including non-contractual disputes or claims) arising out of or relating to them, their subject matter or formation, or the Services are governed by the laws of the British Virgin Islands, excluding its conflict-of-laws rules, except that the arbitration agreement in Section 22 is governed by the laws of Singapore as stated in Section 22.2. Subject to Section 22, the courts of the British Virgin Islands will have exclusive jurisdiction over any dispute not subject to arbitration, and the parties consent to personal jurisdiction and venue there. If you are a consumer habitually resident in a jurisdiction whose laws grant you mandatory protections or a mandatory forum, nothing in these Terms deprives you of those protections or that forum.

24. CHANGES TO THESE TERMS

We may update these Terms from time to time. If we make material changes, we will provide notice (for example, by email to your account address, a notice

in the Dashboard, or a click-through prompt) before the changes take effect, and the "Last Updated" date above will change. Material changes will not apply retroactively to Submissions confirmed before the effective date of the change, except as required by law. Your continued use of the Services after the effective date constitutes acceptance of the updated Terms. If you do not agree to updated Terms, you must stop using the Services and may delete your account (Sections 12.6 and 18.1).

25. GENERAL PROVISIONS

25.1 Entire Agreement. These Terms, together with the Privacy Policy and any additional terms presented for a specific Call-for-Data or feature, are the entire agreement between you and Arca regarding the Services, and supersede all prior agreements and understandings on that subject.

25.2 Severability. If any provision of these Terms is held invalid or unenforceable, it will be enforced to the maximum extent permissible and the remaining provisions will remain in full force.

25.3 No Waiver. A party's failure to enforce any provision is not a waiver of its right to do so later. Any waiver must be in writing.

25.4 Assignment. You may not assign or transfer these Terms or any rights or obligations under them without our prior written consent, and any attempted assignment in violation of this Section is void. Arca may assign these Terms in connection with a merger, acquisition, corporate reorganization, or sale of all or substantially all of its assets, or to an affiliate.

25.5 Force Majeure. Arca is not liable for any delay or failure to perform resulting from causes beyond its reasonable control, including acts of God, labor disputes, internet or blockchain network failures, power outages, war, terrorism, civil unrest, governmental action, or epidemics.

25.6 Export and Sanctions Compliance. You must comply with all applicable export control and sanctions laws in connection with your use of the Services, and you represent that you are not prohibited from receiving software, services, or payments under those laws.

25.7 Electronic Communications. You consent to receive notices and communications from us electronically, including by email to your account address and through the Dashboard, and you agree that electronic communications satisfy any legal requirement that a communication be in writing. Checking a box or clicking an acceptance button has the same legal effect as a handwritten signature.

25.8 Notices to Arca. Except where these Terms specify another channel, legal notices to Arca must be sent to Concision Technology Limited, Attn: Legal, 3rd Floor, Palm Grove House, Road Town, Tortola, VG1110, British Virgin

Islands, and by email to contact@arca.market.

25.9 Interpretation. Headings are for convenience only. "Including" means "including without limitation." No rule of construction applies against the drafting party.

25.10 Language. These Terms are drafted in English. Any translation is provided for convenience only, and the English version controls to the extent permitted by law.

26. CONTACT

Questions about these Terms or the Services may be directed to:

Concision Technology Limited (operating as Arca)
